REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Note that Applicant's amendment is sufficient to overcome the art rejections and sufficient to place the instant claims in condition for allowance. Of the references of record, the most pertinent is US 6,428,856 and US 6,669,161.

Both cited Patents teach a shock-absorbing cushion comprising all the structural limitations as recited in the claims (figure 21). However, they are disqualified as prior art under 35 USC 102(e) because the present invention and the cited patents at the time the invention was made ^{was} owned by the same person. Further, no appropriate double patenting rejections are found.

Accordingly, since the prior art fails to teach or suggest an air cushion as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
